**TIPPINGPOINT TO HIGHLIGHT INDUSTRY SECURITY
ISSUES AT SECUR MIDDLE EAST**

TippingPoint to highlight key threats in 2008 for major banks, telecoms and aviation

DUBAI, United Arab Emirates – 5 February 2008 – TippingPoint, a leader in intrusion prevention, today announced its presence at the inaugural Secur Middle East, through displaying its current product portfolio and providing an educational speech to discuss the key security threats for the region in 2008.

The event takes place on 18th and 19th of February, 2008 in Dubai and focuses on emerging technology for information management and breaches and manipulation of business data. Attended by CIOs and General Managers, the congress agenda will also cover securing wireless technology, network security for corporate defensive, the daily threats from both internal and external sources and prevention strategies.

TippingPoint, a gold sponsor, will be speaking at the event to highlight key industry issues such as Web 2.0 and client-side attacks, RFID attacks, etc. and prevention strategies on 18th February 2008 at 11 am. Visitors to Secur Middle East will also be able to exclusively experience TippingPoint's latest products and services during the two day event at stand 21.

Arun George, Technical Sales Manager GCC and India, TippingPoint, commented: "As a leading expert in Intrusion Prevention, TippingPoint will be speaking on the cyber crime statistics of 2007, emerging key cyber threats for 2008 and also highlighting the five-layer technology defence strategy for effective protection."

"Secur Middle East is an ideal platform for industries to come together, discuss current issues and learn best practices for dealing with ever changing and growing threats of today and tomorrow," George continued.

TippingPoint is widely recognized for enterprise security expertise and innovation in best-of-breed intrusion prevention systems, offering high performance network infrastructures, application and performance protection for all IP-based voice and data traffic. With businesses realising the true benefits of IPS, TippingPoint continuously leads the industry by being the first to market with innovative IPS features such as Spyware protection, multi-gigabit throughput and phishing protection.

About TippingPoint

TippingPoint, a leader in intrusion prevention systems (IPS), provides the IPS-secured network, which delivers attack control, access control, and application control. Its foundation is the TippingPoint IPS, the most decorated in its industry with unparalleled performance and security, as evidenced by nearly 35 awards. For a full list, visit: http://www.tippingpoint.com/products_certifications.html. The IPS obtains evergreen protection from the Digital Vaccine[®] service, powered by DV Labs, the largest body of security researchers in the world. DV Labs is made up of expert internal researchers and over 600 Zero Day Initiative researchers. For more information on TippingPoint, please visit www.tippingpoint.com.
